Meeting to Arouse the Second Assembly District.

Startling Words for the City Authorities.

RESOLVED TO HAVE BREAD.

Weveral Addresses from Members of the Committee of Safety-What the Commune Intends To Do.

The Communists, it would seem, are moving and organizing in reality, and, judging from the speeches derivered at the meeting which took place last evening at Cosmopolitan Hall, corner of Catharine street and East Broadway, are determined upon asserting their rights to assemble in the public parks of the city. Quite a number of the organization were present, representing almost every nationality. Applause was freely given whenever any of the speakers siluded to the Police Commissioners or the police as tyrants and

CITIZEN BANES was on hand at an early hour, and as each newcomer made his appearance he would immediately rise and grasp him by the hand, and at the same time whisper to him in a subdued tone information of a secret character. About eight o'clock there were about sixty or seventy present. Citizen Banks then stepped up to the table at the further end of the room and called the meeting to order. He proposed that Mr. Roger Burke be requested to act as chairman. The motion was seconded and carried, and

ME. BUREE MOUNTED THE BOSTRUM. All eyes were now turned upon thizen Burke, and as he prepared to deliver his address of thanks a faint appliance greeted his ears. As soon as order was restored Citizen Burke delivgred himself of the following speech:-CITIZEN BURKE'S SPEECH.

GENTLEMEN-I am thankful to you for having elected me to this position. It is not the first time that I have held similar positions among the workingmen. I am sorry to state that last evening one of our meetings was broken up by the police, and several of those present were "pulied." I am happy to be able to announce to you that every district in the city is undergoing a thorough organization. This district, however, is deavor to perfect our organization here also. The police have endeavored again to infringe upon our rights, for to-day, hearing of our proposed meeting this evening, they were sent around to dissuade the workingmen from putting in an appearance. I understand that at this very moment policemen very midst prepared to note down every word we may give utterance to. The Committee of Safety desire, for the purpose of perfecting our organization, that every one present this evening step forward and inscribe his name upon the roll. At this juncture one of the audience requested information of the speaker as to whether or not the police of New York city had been empowered to amend the constitution of the United States so as to prevent the right of free speech. This remark was received with applause by the entire assem-

Having concluded his remarks, Citizen BURKE then introduced CITIZEN BLLIOTT.

Citizen Erriory announced the fact that the German wards were already thoroughly organized, and that the only thing which remained to secure a thorough and effective organization was the enrolment of the English speaking wards. The proper manner of procedure, the speaker stated, for those in sympathy with the movement now on foot to redeem the workingmen was to perfect district and ward organizations throughout the entire city, the same as is done previous to the holding of the political elections. Rumors had gone abroad that the Committee of Safety had determined to resign their trust, but such was not COMMITTEE OF SAPETY

would always remain in active existence. memtiers of that committee had pledged themselves to remain true to the principles which led to their organization. They would never relax their efforts, but would work night and day to promote the great cause of the workingmen. Not one of them sought any office, and they were all pledged never to accept any. The Committee of Safety have, moreever determined to carry the cases of the men now in custody who were arrested for participation in the meeting on Tuesday last before the State courts, and no labor nor expense would be spared to tree them from bondage. On last Tuesday the country at large had seen a most dastardly outrage perpetrated upon the rights of the work-COMMISSIONER DURYER

had charged his police upon inoffensive workingmen like so many "bulldogs." dience—"chame! Shame!") (Voice in the aumen like so many When a demonstration is made again let the workingmen go out in large numbers, so that police or military will not dare to resist them. (Loud applause.) I request that those who are present here this evening will, before they depart, come forward and sign the roll so that we can form a good nucleus to periect a solid organization in this ward, CITIZEN BANKS

was then introduced. During the interval between the organization of the meeting and the conclusion or the speech of Citizen Elliott the audience was considerably increased by the entry of quite a number of prominent Communists. Citizen Sanks immediately opened his remarks by alluding to the outrage committed by the police on last Tuesday. He then continued in the following strain :- To-night, again, it appears to me that an attempt is being made to intimidate

us from holding our meetings as citizens and workingmen, and a second outrage is being perpetrated upon us. We are denied the right of even meeting in peace and quietness In this hall. Pohee guard an the entrances, and detectives have been placed in our midst to watch our every movement. This I consider even a greater outrage than the one which was perpetrated on Tuesday warning the workingmen to keep away, telling them that if we met there would be trouble. The committee, however, have met here in defiance of the police. We are not to be terrified. We are not to be coerced into giving up our rights as citizens. Outrages such as these leave men no other remedy than military action and to be prepared mintarily, in order that we can meet whehever we desire to exchange opinions and prepare for action. At Tompkins square they prepared an authuscade for us, and without a word of warning began an indiscriminate clubbing. Those who were endeavoring to run in order to escape laceration were clubbed unmercifully-one workingman being killed outright and another now nes at the point of death. The time has come and we MUST NOW PREPARE FOR THE WORST.

We must resist as workingmen, and as such we most endeavor to put down all monopolies. Under the present laws which govern society how much better off are we than the former slaves in the Bouth! (Voice in the audience-"They were well Yes, they were well fed, and they were cared for and provided with work, which we are denied. We are not even as fortunate as were the negroes. Talk about free America and the Stars and Stripes! Why, the Stars and Stripes are in disgrace. We must prepare to FIGHT THOSE OPPOSED TO US.

We are tired or political demagogues. We have had enough of them. They talk about the Communists. The Communists are the only ones who look after the rights of the workingmen. (Loud applause.) Newadays the workingman who dares to say a word draws down upon his head the anger of the oress. The competitive system in existence makes all the trouble. We want the system of universal co-operation, and to this opinion we must all incline. The man who does not labor robsthe man who does. He hires you for his good only and robs you of the profit which belongs to your labor. Independent action on the part of the workingmen is the only way we can gain our ends, and if we cannot meet pacifically we must organize militarily. We must have no sympathy for anybody but our famises, and if the police will not allow us to meet quietly we must go armed to our meetings. OTHER SPEAKERS.

Citizen SAMURLS, of the Committee of Safety, then addressed the meeting, and was followed by Citizen Leander Thompson, chairman of the Commuttee of Safety, and Citizen McGuire. Subsequent to the speech of Citizen McGuire, Citizen Eilhot effered and read the following resolutions, which were unanimously adopted :-RESOLUTIONS.

Resolved, That we will support and sustain the Committee of Salety in its work of securing the above objects and the rights of all the people.

ADJOURNED, After a somewhat lengthy address from Mr. McMicken, of the Committee of Salety, the meeting adjourned. Those who had not already signed the roll of membership were then again invited to do so. Some fears had been entertained that when the meeting was over some altercation, if not a serious disturbance, might occur between the police and the men who had attended the meeting, but nothing took place that could in any way be considered reprehensible. The men quietly dispersed to their homes, without even hovering around the building.

THE COURTS.

George W. Smith, Deputy Collector of Internal Revenue in the Northern district of Mississippi, who had been indicted there for embezzling public funds, and was subsequently arrested in Massachusetts by Depaty Marshal Robinson as an alleged ingitive from justice, was taken back yesterday evening to Musissippl in charge of Chief Deputy Marshal Kenfedy and Deputy Marshal

Lorenzo Levey, of No. 21 avenue D, who had been charged with having unstamped cigars on sale, was discharged yesterday by Commissioner Shields, the evidence offered having failed to sustain the accusation.

Davis (1 Blatchford's Circuit Court Reports, 238), the motion for the production of books and papers must be denied. It is worthy of consideration whether this Court has jurisdiction of this case. It does not appear by the bill that the parties are citizens of different States, and it does appear that

John W. Norton, who is charged with embezzling about \$115,000 from the Postai Money Department, of this city, appeared yesterday before Commissioner Shields and gave ball to the amount of \$20,000, to await the action of the Grand Jury. The | feionious assault and battery, while others have no sureties of the defendant are Abram Wakeman

and J. Monroe Taylor. The examination in the Hardin will case was resumed before Surrogate Hutchings yesterday. Several witnesses were examined, but nothing new was eligited. THE LAW OF ENLISTMENT.

A Very Curious Case-Deserting from the Army, Going Back Again and Now Seeking an Honorable Discharge.

The case of John I. Ritter came yesterday before Judge Blatchford, on habeas corpus, in the United listed at Fort Independence, Boston, seven years ago, and had deserted with several men at Castle | mitted to answer for the robbing of the grocery Garden, in this city. His release from the army was sought for on the ground that, at the time of his enlistment, he was a minor. It appears that Ritter, since he deserted, has resided in this city, has been married and has got a family. Fearing. detection it seems he permitted himself to be blackmailed by a person who was aware of his desertion; but this kind of thing having gone on too far, he got legal advice about two weeks ago to the effect that if the authorities caused his arrest and compelled him to re-enter the service, he could, without difficulty, obtain his discharge on the ground that he was not of age at the time he became a soldier. To this advice Ritter assented, and the result was, as it is claimed, that the blackmaning party gave information which led to Ritter's arrest. Ritter was but nineteen years of age when he enlisted, as appeared by the testimony taken before Com-missioner Shields. Upon this state of facts counsel asked for Kitter's discharge. In reply to the Judge, the District Attorney said he would let the matter rest on the evidence, as he did not see what objection he could interpose.

Judge Blatchford told the counsel that the statute could not be legally held was passed about 12 months ago, and when Ritter enlisted, in 1865, the law was that the enlistment of a person 18 years old was legal. The admission had been made hat Ritter was 19 years of age when he enlisted, and this being so, the Judge said he could not dis charge the delendant. The man's oath was con-

clusive as to his age. This statement evidently surprised the learned counsel, who did not appear to be aware of the existence of such a law, and he then called for the discharge of the defendant on the ground that he was drunk at the time of his enlistment. Judge Blatch ord, in referring the case back to Commissioner Shields to take testimony on this point, made some strong remaks of censure on the practice of of enlisting men when in a state of intoxication. According to his experience upon the

EX-SHERIFF BRENNAN'S FEES.

How the Old Thing Worked and How It Don't Work-The Effort to Cut Down Sheriffs' Charges.

While the late Sheriff of the city and county of New York is "chewing the cud of sweet and bitter ! fancy" in Ludlow Street Jail his bill for the last three quarters of 1872 is not eschewed in the courts. The bill amounts to about \$52,000, and some time since application was made before Judge Daniels, in Supreme Court, Chambers, for a mandamus against County Auditor Earle to audit the bill and against County Auditor Earle to audit the bill and from Bell's and searched the ground on each side the Comptroller to pay it. The subject came up of the road. When they arrived upon the again for reargament yesterday before the same Judge. Mr. Carter, who appeared in opposition to weeks before. The position in which the body lay the application, submitted various affidavits, but indicated the course the blow from the axe had containing no facts additional to those published in the HERALD when the case was first brought to udicial notice, and then went on to state that the Sheriff is required to report to the Secretary of State all convictions had in this county, and his compensation for doing so is a county charge. The statute calls on him to report convictions in the Over and Terminer and General Sessions, and originally it called on him to report convictions in the Special Sessions, and all these would amount to about 23,000 a year. An amendment, however, required him, in addition, to

REPORT ALL CONVICTIONS had before magistrates having criminal jurisdic tion, and any conviction had before a police magistrate should, for this purpose, be deemed had in a Court of Special Sessions. In opedience to that the sheriff was justified in reporting all convictions in the county, even for drunkenness and disorderly conduct, which comprise the immense majority of convictions. That being the law, the Sheriff makes his report for nine months of 1872, and charges for 23,000 convictions in Oyer and Terminer, General Sessions and Special Sessions, although the fact is that he reported only 20,000. Again, the Sheriff charges, in addition, for reporting 26,000 convicmade one of the convictions in the police courts as such, but has reported all convictions in the police courts as convictions in courts Special Sessions; so that, naving reported all convictions in the county during the period embraced in his bill, he makes up his bill for 23,000, which is 3,000 in excess, and then his charge for re porting 28,000 in the Police Courts is a pure fiction

and labrication. THE NEXT OVERCHARGE is of still greater magnitude. It is for conveying prisoners to other prisons than State Prison. It was his duty to execute the processes of the Oyer and Terminer and General and Special Sessions, averaging 1,600 a year, and he has been in the habit of charging \$1 75 a head for carrying the prisoners to the loot of Twenty-sixth street. here we have a bill for executing the processes of ten Police Courts, in number 20,000 a year, whereas we know that neither the Sheriff nor any of his officers ever see these courts, and the prisoners are taken to prison at the expense of the Department of Charities and Correction by the direct instrumentality convictions in these courts and charges \$1 75 a head. There is a distinct representation in the bills that the services were rendered. If all this be true these bills are fraudulent and no court would said the andit by the Supervisors is in the nature of a judgment, and the Auditor has no right to raise the questions he raises. Such men as Alder-

audited these bills as Supervisors, and yet when the County Auditor is asked to perform his duty in auditing he is met with gross accusations. There was no way of enforcing the claim for services which the Supervisors certify was done but by mandamas. The mandamus would not secure payment—it was a step toward it. The relator was not called upon to follow the respondent into the irrelevant issue raised; the question was, the irrelevant issue raised; the question was, Were these bills audited by the Supervisors? and, if so, the Auditor should certify it. When application is made to the paying officer the relator will be nappy to join issue on the question whether the claims were just. Judge Daniels, after hearing the argument, took the papers, reserving his decision.

BUSINESS IN THE OTHER COURTS

SUPREME COURT-GENERAL TERM. The Price Divorce Suit. Before Judge Potter.

This is rather a novel suit, in which the well

known wealthy brewer, Walter N. Price, sues for divorce. The details of the case, which embrace all the usual sensational points of similar cases in which wealth allies itself to poverty, or education and refinement to ignorance and coarseness, or December expects pleasure and laithfulness in the lap of May, are of a character exceptional to newspaper reporting, especially in the earlier stages of the developments. Mrs. Price, née Bridget Falton-priceless in the eyes of her lord-after a brief married life, having been selected from a belle of the kitchen to be the belie of the parlor, is now charged with infidelity to her liege lord, and also with the higher crime of an attempt to poison him. How lar these serious charges can be maintained-and the story is a long and painful one-the result of the trial now pending before Judge Potter must determine. Mean time, from affidavits already submitted attesting the high character of Mr. Price, a motion for alimony and counsel fee has been denied and the

HARLEM POLICE COURT

More Masked Burglars Captured and the Proceeds of a Burglary on a Jewelry Establishment Recovered.

On Friday night Detective Clark, of the Twelfth precinct, saw two young men steal a bag of flour by Mr. Charles Mierisch, at No. 2,267 Third avenue. The detective followed the thieves to 123d street, where he attempted to arrest them. They refused to accompany him to the station house. and the officer was obliged to draw his revolver before they could be induced to change their minds. When searched an astonishing discovery was made. On their persons were found a number of revolvers, a vast quantity of jewelry, watch movements, &c., evidently the proceeds of a burglary perpetrated upon jewelry store, and two black alpaca masks. The prisoners were taken to the Harlem Police Court, where they described themselves as John Williams, aged seventeen, carpenter, and John Patterson, aged eighteen, no occupation. They were comstore, in default of \$300 bail each. Both were afterward taken to the Central Office, where the plunder found upon them was inspected by Mr. Hank, the Ninth avenue jeweller, who was robbed last week. He was unable, however, to identify any portion of the property.

Brother Slayer and General Murderer in Jall-Bob Turner's Crimes-Held for Taking Two Lives and Boasting of MILWAUKEE, Wis., Jan. 17, 1874.

Bob Turner, of Potosi, Grant county, Wis. has been arrested for the murder of his brother Albert. The inquest, which has just been concluded, revealed a bloodthirsty propensity on the part of Bob surpassing even that of the Bender killed with an axe, his head being nearly severed enacting that any person enlisting under 21 years | from his body, as he was coming out of a mineral nole in which he had been at work. He fell back speechless and never moved. The murderer then called to another brother, who was in an adjoining shait, and this brother, whose name was Newtoncommenced climbing out. When he reached the surface he saw the body of his murdered brother Albert, and was about to run, when Bob seized him, and, showing the bloody axe, threatened to kill him instantly unless he would swear to assist

PUTTING THE BODY AWAY and to preserve silence. This Newton assented to, but on the first opportunity he escaped to Potosi, where he gave the alarm and the murderer fied to Lancaster. He was pursued, arrested and lodged in prison, where he soon

ATTEMPTED THE LIFE OF HIS KEEPER. The second of Turner's murders, which has just come to light, is that of Oiney Neely, a youth of Ellenboro. Bob Turner was there cutting hoop poles for Mr. Bell. On Tuesday, December 23, the boy started from Bell's to visit his mother, who resides in New California. His road lay through timber belonging to Mr. Bailey, where Turner was at the 9th of January. The people residing in the neighborhood, having heard of

TURNER'S MURDEROUS PROPENSITY and knowing that young Neely had to pass near where he was at work, turned out on rriday last to hunt for Neely's remains. Eight men started premises where Turner had been chopping they ound the body, which lav as it had tallen two taken. The boy's head was nearly cut from the body, only hanging by a small piece of skin of the back and front of the neck, the axe having gone CLEAR THROUGH THE NECK. The body was taken care of, and the jury empanelled to hold an inquest found a verdict "that Olney Neely, aged fourteen years, came to his death from the blow of an axe in the hands of

TWO OTHER VICTIMS. Several other mysterious murders having taken place in the localities in which Turner had been seen, Marshal Bennett visited the prisoner and asked him to confess if he had any hand in them. He finally confessed that he remembered killing two more. One was a stranger whom he had encountered in a deep ravine at the back of the Poor farm and thereupon attacked and murdered, hiding the body. The other man he met on the road to Muskada, where he was going to get work. He says that the latter made threatening gestures, and he leared he was going to take his life; so he closed with him, and with a four pound weight which he carried in his pocket struck him two blows over the eyes, SMASHING IN HIS SKULL

and killing him instantly. He dragged the body into the bushes, secreting it there. THE MONSTER'S -RLOODY BOASTS Now that he has confessed he delights to talk of the many persons he has killed. He gloats over the skill with which he has concealed their bodies, and declares that if they were got together there would be nearly forty of them.

NAVAL MATTERS.

The United States sloop-of-war Juniata left the Navy Yard yesterday and dropped down to the Battery, near which she anchored. Her preparations for sea have almost been completed. Tomorrow she will receive her powder, and will probably sail for Key West on Tuesday. The Juniata is short of officers.

The Dictator will be ready for sea to-morrow and will be convoyed to Key West by the Juniata. Business at the Navy Yard is comparatively dull. It is expected that further orders for the discharge

of workmen will shortly be received. The Swatara, at New York, and the Quennebang at Philadelphia, will soon have their machinery completed. The boilers have just arrived in a threemasted schooner from Washington. The schooner also carries machinery for the Boston Navy Yard. The Reanoke monitor, which has gone into commission, will drop down to the Battery, or perhaps to Staten Island, about the middle of the week.

She will be the Port Admiral's flagship, instead of the Frolic, which has been ordered to Norfolk.

The Minnesota, which it is understood will be the flag ship of the European squadron, is now ready to receive her officers. No orders have been received relative to her future movements. The engines of the fast war vessel Florida have been completed by the contractors and placed on board. She has not gone into commission, and it is more than probable she will be held in reserve for any "emergency" that may arise. The Tennessee is now at the Morgan Iron Works.

Her engines are ready to be turned over. She will likely make a trial trip during the week. The torpedo boat constructed upon the designs of Ad-miral Porter is also at the Morgan Iron Works getting her machinery completed.

The Montank is at the Quintard Iron Works Goodwin, 350 tons, to patch metal, and schr Isle of Pines, being generally overhauled. The grand naval review which was announced to take place at Key West shortly will probably not

Marine Disasters. SHIP SALADIN (of London), from St John, NB, for England is a wreck near Yarmouth, NS. She left St John Jan 12, deal laden, and suffered severely in gales. On the 14th her sails blew away and the crew refused to work. Being on a lee shore and sea heavy, were compelled to beach her. The crew succeeded in landing. Ship lies on Stanwood's Bar, one mile north of Yarmouth lighthouse, and will probably be a total wreck.

Ship Confidence, Howe, from Portland, Oregon, for Queenstown, was knocked down off Cape Horn, letti-soned about seven tons cargo (wheat), and put into Mon-tevideo Nov 24, with numps choked and a heavy list. SCHR J ALBERT, Smith. at Providence Jan 17 from Bow. SCHE J ALBERT, Smith, at Providence Jan 17 from Bowler's Rock, Va. reports that on the 15th inst. at 3 o'clock PM. The Boston pilot beat Phantom remains on Nantasket beach, nearly as before reported. She is a strong boat and holds together well. A slight examination shows

that her copper is broken in one or two places, from her keel upward. The sea has gone down a great deal, and the Phantom will be patched up in the vicinity of her worst leaks in a day or two, so that possibly she may be floated off and into harbor before another storm.
